

RETURN TO BLACK NCC STONE SEALER

Water-dispersed Black Impregnating Stone Sealer

For Exterior use

For restoring the appearance of permeable faded black or dark grey natural and reconstituted stone including limestone, granite, slate and concrete surfaces.

Directions for use

Wear gloves and ensure that any surfaces not to be treated are suitably covered and protected.

IMPORTANT: This product is a permanent stained solution that will darken the surface of the stone and the grout joints making it very difficult to remove once applied. Test on an inconspicuous area before general application and do not walk on treated surfaces until the solution has completely dried.

Shake bottle well before use. Apply a small amount to the surface and spread out evenly using a paint brush or sealant applicator.

Rough cut or textured surfaces apply with foam roller or paint brush. Allow to absorb and dry. Apply further coats (max 3) at 2 hourly intervals until desired depth of colour has been achieved. Leave to dry naturally.

Honed and smooth surfaces: once dry and to ensure even application it may be necessary to work off any excess sealer using a soft cloth. Do not walk on the surface for at least 4 hours after final application. Allow newly treated surfaces to cure for 24 hours and then rinse with dilute **NCC Grime Remover**, this will help to remove any excess sealer. Before allowing traffic gently rub the surface in a few areas with white cloth or paper towel to make sure that it is colourfast.

Always experiment on a trial area first to establish optimum results.

Coverage: M² per application

| | 1 LTR | 5 LTR | 25 LTR |
|--------------------------|-------|--------------------|--------|
| Higher porosity surfaces | N/A | 37.5m ² | N/A |
| Medium porosity surfaces | N/A | 75m ² | N/A |
| Honed smooth surfaces | N/A | 150m ² | N/A |

Storage information

Store in a cool, dry, frost-free environment.
Shelf Life – Up to 2 years for un-opened containers.

Other

Do not use in temperatures under 5°C or over 25°C. Clean application tools and brushes with water after use.

Health, Safety & Environmental

Harmful if inhaled.

Harmful to aquatic life with long lasting effects.

Keep out of reach of children. Do not breathe fumes/vapours/spray. Use only outdoors or in a well-ventilated area. Avoid release into the environment. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Call a **POISON CENTRE/doctor** if you well unwell. Dispose of contents/container to hazardous or special waste collection point.

WARNING

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area
